## 2012 Sandburg Cross Country Team—

When I was asked to describe our team in one word, the word “passion” immediately came to mind. There are lots of ways to describe this team, from determined, to caring, to hard working, to countless other over used adjectives that should be reserved for people like this team. Yet it was passion that seemed to stick out the most. Thinking about seniors who have been running for four years through freezing winter days and scalding hot summer days or news guys to the team like our former soccer players and the big group of freshmen, I couldn’t help but think about passion. Passion is what fueled all of what we did. This is a team that cared. This is a team that demanded the most from themselves and each other. This is a team that had the courage to lead. We had the ability to care enough to fight through any obstacles. All throughout our goal setting and chasing dreams, we focused on becoming the best possible versions of ourselves.

In the end, how will the 2012 cross country team be remembered? What is your legacy? Our goal has always been clear: to be the best cross country team we could possibly be, to carry ourselves with dignity and class, to care about one another, to set a goal and go after 100%. *The 2012 Cross Country team is a success.* No trophy is needed to show this success. No medal will adequately symbolize your achievements. Your success will be found in every step your individual journeys will take you. Success is found in the friendships, the memories, the values and character you’ve developed over the years. Any material item is a joke in comparison to your true rewards.

As you reflect on your season, it is important to note the members of our team who we say goodbye to tonight. Or, if you are a senior, it is important to reflect proudly on the determination and character you’ve lent to this team for the past few years. Seniors **Brandon Calderon, Ethan Dee, Aaron Graves, Chris Hogan, Pat Letz, Joe Licata, Pat Lim, Pat McMahon, Nicholas Prajka, Nick Radtke, Matt Sawyers, Bill Siczkowski, Luke Vanderkrabben, and Ryan Walsh** leave a major gap in our team. Their legacy will not be forgotten. We owe a debt of gratitude for their commitment and dedication. I hope everyone looks to the seniors as examples.

To the Seniors: thank you for all that you’ve done for Sandburg Cross Country. I feel so lucky and honored to have had the opportunity to share in your journey; your goals, your personalities, your decency, your work ethic, and your fun. I hope that you got as much out of these past four years as I have. You guys are such a unique blend of personalities that somehow come together as one unit. I hope that you never forget all that you’ve discovered about yourself while being a Sandburg Cross Country runner. You are prepared to do anything you want to do in life. If you tackle life in the same manner that you’ve approached cross country, then you will be successful. Your role as a Sandburg cross country runner is only beginning. As you have experienced, alumni are a major part of our team. It is your job now to serve this role. As alumni, be sure to support Sandburg, return to visit, write letters, and keep in touch. You will always be Sandburg cross country runners. You truly are my kind of guys.

To the rest of the team: as you reflect on the seniors, perhaps it is an opportune moment to consider what legacy you will leave behind. When your time comes for graduation in one, two, or three years, what will you be remembered for? Will you be a part of building this program to the heights that we dream of? Will you be a positive influence on those who will come after you? Every one of you—freshmen included—now become the leaders on this team. Next season there will be runners who need your guidance. Next season it will be your responsibility to continue to build this program and honor the tradition. Look to our greatest runners and you will always find our greatest workers. There is a simple formula in this sport: you can become as great as you want to be. The question is, how great do you want to become?

Thank you for an unforgettable season. I will never forget this group!

--Coach O'Malley

# NEWS AND NOTES

## Time Trial

Saturday, August, 18, 2012

Low 70's, dead calm, sunny, perfect

**COACH'S COMMENTS:** "Celebrate your success and stand strong when adversity hits, for when the storm clouds come in, the eagles soar while the small birds take cover"

Always remember that we are engaged in a process. The process takes place every day and we can't get sick of the process or get ahead of any step. This is how you discover your greatness. I don't know how many of you have gone through your days with doubts and fears. How many times have people told you you are anything short of extraordinary? Have you concerned yourself with how many people think highly of you, or like you? Seeing you on Saturday answers those doubts with a profound awareness that you are truly great. You are tough. You are determined. You are part of something greater than any individual could be. While so many people prefer to sleepwalk through high school, you are determined to challenge yourself. You are decent and caring. That's what I saw and I hope you know. If you do, do you really need someone else to validate your greatness? Be proud.

Like everything we do this year, we will evaluate our day based on our 10 standards: communication/listening, accountability/respect, passion, attention to detail, family, belief, poise, leadership, positivity, and "all in depth." We had a great start to the season with these standards. We'll need to take all the way up to "10s on all 10." These standards are going to be challenged. Competition, setbacks, bad days, doubts that creep in, fatigue and more will challenge your ability to rise to our standards. We'll need to be ready.

The race itself was spectacular. We took advantage of perfect conditions and it was by a very wide margin the greatest performance in CSHS Time Trial history. Our previous fastest, non-Lukas time came from Kevin Adamowski in 2006 (15:56) and we had three guys better than that and many more close in on that mark. **Pat McMahon** continues his ascent toward being one of the best in the state. His time is ridiculous for this time of year. Meanwhile our Horsemen are forming packs of lethal riders, ready to run anyone down. **Chris Hogan** and **Pat Letz** worked very well together. This is what I like to see. We can use each other and PUSH each other. This is how we succeeded last year when we had everything going against us. Hogan and Letz have improved tremendously over the years and showed a veteran, tough SENIOR form of racing. We still have some areas to work on, but they looked great. **Nicholas Prajka** also showed how much he's improved over the year's time. This is what happens when you commit to year round, serious training. This is my guarantee: if you train seriously, you will succeed. If you don't, you won't. Prajka looked a little tired after a tough week of training and a few extra miles, so I am expecting him to hook up with Letz and Hogan and get that thing really rockin up front. The next few weeks will prepare that group to run 15:10 at Detweiller at Peoria Notre Dame (good weather). **Ethan Dee** and **Aaron Graves**—a major element of the Horsemen—experimented a little bit with an aggressive opening mile. This was a good idea; we learned from it. We are going to modify that plan for Lyons. Tropical Storm **O'Callaghan** is a reality. People have boarded up the windows. They've taken cover. Some have even left town. There are red blotches all over the Doppler radar and it has been elevated to a level 4 hurricane, and it's only gathering speed. Tom Skilling is going crazy in his little chair in the studio. Meanwhile, on the horizon, another storm appears to be gathering: **Hetzler**. He is coming along after some sporadic early summer running. Consistency and a continued aerobic build will make him scary good. Our Fresh-Soph group is looking incredibly tough. The SWSC is in trouble this year. Our best freshman time ever was recorded by Kevin Adamowski and Pat McMahon when they ran 16:46. We had **Tommy Brennan** beat that and a pair of tough freshmen in **Sean Torpy** and **Dan Laskero** right on that time. **Max Lehnhardt** and **Brandon Lukas** lead an incredibly strong group of freshman. I hope all the freshmen and sophomores look at the times in parentheses. Those are the freshman times of our older runners. You can see what happens when you commit to running year round and working toward becoming your best. This was the greatest thing about Saturday. Look at our astounding improvements. It blew me away. After a year (or several years) of some really hard work, we see how much better it makes us. Look at **Brian McMahon's** 10:34 time drop!!!! He was out there every day this winter, spring and summer and he has transformed himself. **Marky** over 8 minutes!! **Benz-Weeden** dropping 5:15!! This is what it's all about. Saturday was a starting point for everyone in one way or another. A first race ever for freshmen, the first race of a season of steadily improving for our veteran guys, the first cross country race after giving up another sport. Whatever the case may be, we are only going to continue the process of becoming the best versions of ourselves. We have a lot of work ahead!

I'd like to say something about how we handle guys running in meets. First of all, there is no set top 7 or any spot. There will be times we move guys around simply to put them in different situations. I believe strongly in finding and creating opportunities. From those opportunities we learn a great deal about those runners. This is the same philosophy I took in track, moving guys in and out of spots until we felt good about the opportunities that were made for runners. Let me say this: 1. You have to earn that opportunity. I'm not going to give it to someone who hasn't earned it. 2. Once you get the opportunity you better take advantage of it. This brings me to my last point: anyone who has not demonstrated in practice that they are ready, both mentally and physically, to race will not race. While everyone has a different ability level, there is no excuse for lack of improvement, lack of hard work, or lack of competitive toughness. EVERYONE needs to be committed to excellence or they will not put on the jersey. When you put on the jersey, you've earned it. Be honored. It's a privilege.

I couldn't help but leave Turtlehead Saturday excited about the season and the work that lay ahead. We are going to continue to focus on our process goals of achieving our expectations of excellence. They will be the things we need when we go to Lyons to compete, when we go to Peoria, when we win SWSC and when we win state.

**TIDBITS:** »Big Brother begins this week »Warmups will be handed out at Friday's practice.

**THANK YOU TO THE PARENTS AND RUNNERS FOR THE WONDERFUL PICNIC ON SATURDAY!!!**

**WHAT'S NEXT:** Lyons Invite is our first invite in two weeks (9/1) and we have the Pre-SWSC meet next Sat, 8/25.

## Pre-SWSC

Saturday August 25, 2012

Lockport Dellwood Park (new course)

Sunny, Hot, Relatively Calm, Dry, 91 degrees

**COACH'S COMMENTS:** We started the day with the F/S race and found out very quickly that we have our work cut out for us if we want to win the SWSC. L-Way Central clearly has some great runners. At the same time, we had a lot of our keys groupings fall apart. **Tommy Brennan** had a great battle—and had our fastest time of the day of any level—and really proved that he is a force. He'll have a chance to redeem his loss to the LWC freshman this week at Lyons. After that, we struggled. Our gaps opened up WAY too much. If we had maintained the gaps we had at Time Trial we would have had a very good day. Tommy came in at 16:56, but after that :47 to our next guy when last week we had our 2-3-4 finish within :27 of him. I'm not sure why we fell apart on so many of those groups back there. It is a lot more difficult to stay focused and not lose contact with the leaders when you have a lot of runners, but this is one of our key Pillars—focus/poise. This is a skill that is required if you want to run well at big meets, especially meets like Peoria, Sectionals and State. You can't "fall asleep" with the group you are running with and expect a good outcome. It's not that we aren't working hard out there, it's that we level off the effort to match those around us. We don't want that to happen. We also will need our sophomores to step up and believe in their abilities. Freshman currently make up 4 of our first 6 and 6 of our first 8. We need the sophomores to actually believe they belong up front. That is one area I'll be looking at in the coming weeks. The sophomores have their first test of their ability to control the race and race confidently in the sophomore race this weekend. What is this group capable of on their own? Meanwhile, I'm really excited about the way **Max Lehnhardt, Paul Siezkowski, and David Gleisner** have been racing and training. They are guys I know will be great runners now and in the future. They have the work ethic, competitive fire, and consistency that is needed to become great. All of our younger guys are going to have to be extremely committed to achieve our goals now and in future seasons. Nothing will be given to us—that became clear on Saturday. Meanwhile, the varsity had a few different race plans unfold. It was good to see the front end come through the opening phase of our target race plan very well. I want you to assess your body's feedback at that point. Of course, this execution is easier when you know you are not really responsible for covering the remainder of the race, so you'll have to have focus and belief that you can be aggressive and still manage the pain of the rest of the race. If at this point it was obvious that you won't be able to, we'll need to adjust that race plan. Some of our gaps got a little too large, but I liked our ability to execute and work toward pushing each other as units. Let's continue. **Hetzler, Beckers and Siezkowski** worked well together. I am confident all of those guys are only improving. And as I said last week, I see the storm clouds of Tropical Storm Hetzler gathering as we speak. Nick **Radtke** executed very well while having to work mostly on his own—that was a tough day to do that and he did it well. I like that **Joe Licata** was right on that Hetzler, et al. group. That will be excited to see him continue to close that gap and run with some of them this week.

It certainly was a challenging course, challenging weather, some challenging competition. We need to always be ready to respond to those things that challenge us to live up to our values. **Control the Controllables.** Focus on our 10 Pillars at all times and you'll succeed. Pride ourselves on our toughness and poise. Our race plans always require those two elements because they are our strengths. I'm very excited for our fitness for a lot of guys. They've developed key aerobic areas and neuromuscular abilities in the last three months and now we can move toward specificity. I said six weeks ago that if you get fit, we can add specificity and we'll tear it up. We are right on target.

**TIDBITS:** >>Blow pops (\$75—no change) due Monday Sept 10. You can't go to Peoria if you don't have your blow pop money turned in. >>We are ordering Lukas Verzbicas shirts this week. Turn in asap. >>New support squad partners>>go to the team shop to order CSHS CC gear. Store closes Sunday, Sept 2. >>Runners of the Week start this week. It's time to race for real!

**WHAT'S NEXT:** Lyons Invite this Saturday, Sept 1. All freshmen will run in the freshman race, all sophomores in the sophomore race, varsity race lineup is TBA, and all juniors/seniors not in varsity will run open. We race #4-ranked Lyons, #6-ranked Maine South and #22 ranked LWC. Marist also has a hat to throw in the ring.

## NEWS AND NOTES

*RUNNERS OF THE WEEK: Tom Brennan, Paul Siezckowski, David Gleisner, Will Becker*

### Lyons Invitational

Saturday, Sept. 1, 2012

70-75 degrees, overcast, calm, humid, rain late

**COACH'S COMMENTS:** We had very different experiences on Saturday. In three races, we had guys who were excited to race. In the varsity race—which should be our marquee event—we looked more scared than excited. The result: strong races from our excited guys and terrible ones from our scared ones.

One thing I know for sure is that you are what you practice. If you practice toughness, togetherness, focus, and confidence you'll be a tough, together, focused and confident team. We did not have all of those things for all of our runners on Saturday. This is disappointing because that means we are not practicing that very well. I don't care about what place we take, what I care about is *how* we go about our business. The varsity raced lacked all of our pillars. We ran better at the time trial, yet we pride ourselves on a team that loves competition, has poise and composure, shows toughness. We had all of that go out the window during mile two. We weren't together, we weren't tough, we weren't composed. I am guessing that our belief was challenged by competition and it sabotaged the other Pillars. Remember: All In, not 9 out of 10 in. Let's get it together and be the people I know we are. We did not act like the people I know so well.

Meanwhile, we had some other guys execute and race the way we expect for Sandburg Cross Country. The Open guys featured some really good running. **Will Becker** raced really tough. I loved the way he moved throughout the race and finish with such guts. Becker's final mile was faster than anyone else's except for Hogan/Letz. Remember: a kick is not something that you have to train for—even though we do—it's just a matter of guts. Don't forget what Matt Withrow said: he never really trained for a kick. **Bill Siezckowski** put together a better race than time trial. He is getting closer to where he needs to be. We need him to keep going and continue that improvement. What was disappointing is that we had some people go backwards from their 2011 times. That doesn't make sense. Last year was far worse conditions and there is no excuse for lack of improvement. Our **freshman** ran one of the best races I've seen in a while. What an incredibly excited race! We ended up winning 27-34, but what I loved most about the race was the way the freshmen got it done. They executed the race plan and it was the reason we were able to win. We were losing all the way through 1.5 miles. Guys toughed it out. **Tom Brennan** ran the fastest CSHS freshman time ever at Lyons and toughed it out, beating that LWC guy who beat him the week before. He just needs to work on his last 200 meters. **Sean Torpy** was just awesome—he fought off the assault of the LWC #2 and beat him into the chute with the same time. That was a 2-point swing right there. The most impressive race of the day came from **Paul Siezckowski** who, along with **David Gleisner**, had enough toughness to find the victory. Without their late race toughness, we would have taken 2<sup>nd</sup>. Paul went from 15<sup>th</sup> at the mile to 12<sup>th</sup> with 800 to go all the way up to 9<sup>th</sup>. I told him and Gleisner in the middle of the race that if they went and got the LWC guys we'd win. They went and got them. That is so tough. I'm really excited about the character of this group of guys. I didn't get to see the **sophomores** race, but before I left I went over to them to check in. They were all smiles and excitement. Their excitement showed in their racing. They went after it and showed that they really wanted to make something happen. I love that kind of risk-taking this time of year especially. We need to run fearless. THANK YOU TO KYLE LAHUCIK for taking care of the tarps—great leadership and decency. This is what being a strong teammate and person is all about. Thank you!

I've been saying it all year—this team is going to either succeed by finding its confidence or it is going fail because of a lack of it. I know we outwork everyone. I know we are talented enough. I know we care enough. I know we love the sport enough. The story will be determined by our confidence—not fake confidence. Not entitlement—an assumption that it will turn out okay in the end because we deserve it or it is owed to us. You need to make it happen. Division will not make it happen. Hoping will not be enough. Focusing on you doing well and not your teammates is not enough.

Remember: do not compare yourself to others to determine if you are doing well or not. Our focus this year is on the process and to finish strong. That's what it's all about. Saturday was one day of that process of becoming Conference champs and state qualifiers. We still have a long way to go in order to become totally race sharp. Let's focus on hard work on a daily basis and we'll get to where we want to go

**TIDBITS:** >>Turn in blow pop money >> **Ethan Dee** is in charge of the varsity for now on. The freshmen were together and a serious machine. The varsity were sitting in a corner, having a family picnic, going to the bathroom, etc.

**WHAT'S NEXT:** Reavis Inv.

## SANDBURG CROSS COUNTRY

### NEWS AND NOTES

*RUNNERS OF THE WEEK: Brian McMahon, Sean Torpy,*

Reavis Invitational

Saturday, Sept. 8, 2012

Low 70's/breezy, sunny, beautiful

#### COACH'S COMMENTS:

This week we dominated all three races, but just like last week, just like next week, just like today and every day, we don't evaluate the performances with that as a measuring stick. We are focused on what we know it takes to reach our best when our best will be most needed—SWSC, Sectionals and State. When I watch the races, that is what I am thinking about. Even as you run through the first 800 meters, I am thinking, "how does this translate into our goals? How does this live up to our pillars?" That's it. And that is what you should focus on as well. Are we living up to our 10 Pillars for 2012? It doesn't matter if we win if the performance doesn't help us progress toward our goals. Likewise, a loss can be a good thing if we made a step in the right direction. We only focus on ourselves. We had a better day this week overall than last week, but we still have a lot of work to do. For instance, I saw a guy like **Luke Vanderkrabben** have that competitor look in his eyes. As I watched him past the mile, I saw a guy who was looking to run people down, not a guy who was just suffering through the race hoping it would end. He was active, not passive. Big difference. And it turned out to be a huge difference in his race performance. He had a tremendously better day than last week. On the other hand, our varsity still is not running with conviction and confidence. Gleisner and Graves are falling asleep in the race—I've seen them do threshold miles way faster than their 2-3 miles at Reavis. That doesn't make sense. You have to get your head ready to hurt, to be positive, to actually believe you'll succeed, and to be hungry mid-race. **Nicholas Prajka** had a much better race than Lyons and has a lot to build on. Here is a fact: if he finished the same distance from the Marist and Brother Rice kids who were also at Lyons he would have finished right with Letz and Hogan. So the question this week at Peoria is, is he tough enough and poised enough to do the same thing in a competitive environment? Clearly he has the ability, but it's mentally easier to pull it off without a crowd. I am confident he can figure out a way to get it done with the crowds of Peoria...if not, it doesn't do us a whole lot of good. Get up with Hogan and Letz and we'll be tough to beat. I loved **Denis O'Callaghan's** aggression. He got the varsity group out and rolling, leading them through the mile mark. He is still learning the 3 mile race (this was his first actual race!) and he ran tough. I love watching him compete. **Matt Hetzler** and **Will Becker** also had strong races—both are showing great progress every week. They were two guys who closed well—an area we continue to struggle with on varsity—and they've made themselves strong varsity runners. Can't wait to see them mix it up next week and continue that progress. This group is even better than they've shown. You boys in the varsity race, listen: you guys are super fit and super strong. You have the ability to be great. The thing that can stop you from that is settling on good. To do something extraordinary this week and beyond, you need to *think* extraordinary. You need to risk, run free and do something you haven't in the early season. I want to see that character of the Horsemen Pack that you always have been. Time to stop finding reasons we aren't good enough and get our heads thinking that we are as good as our goals.

The F/S group was once again spectacular. **Sean Torpy** showed how much of a champion he is. He didn't even think to just let Tommy go—he tried to win the race himself. He put on a move in the wooded area after the mile and made sure he was pushing for the victory. I love this mentality. As I was looking over past Reavis notes, I saw that I made a similar comment about Chris Hogan two years ago, who finished 15<sup>th</sup> in the sophomore race in 17:20, but I commented that what I loved about his race was his unwillingness to concede the race to guys who were beating him prior—Graves, Stefik, Dee, Letz. I remember clearly how he went right after them. And look at him two years later—up front for the varsity. He was unwilling to settle for good. **Max Lehnhardt** had another great race—even better than Lyons. He is turning into a really exciting runner. And I loved how **Laskero** out-toughed the opposition to kick home a 1-2-3 sweep for us. The open race was also really exciting. **Brian McMahon** is simply incredible. He was 25:29 last year!!! Under 18:00 and looking like he has an aim for the 17:00 barrier soon enough! Amazing! **John Markey** has been really impressive as well. 22:12 last year and now 18:45. He has the best attitude and I love watching his improvement. He is a part of a great group of sophomore runners who are really committed to reaching their bests and have been there all year long—another guy like that is **Kyle Lahucik**. What a great race he put together. I have to take a second to say something about **Lou Cavalier**. This guy was so sick since mid-week that he couldn't even talk. He still made it to practice every day. He shows up Saturday morning, and I ask, "Lou, you feeling any better?" and the noise that came out of his mouth did not resemble anything that a normal vocal cord would produce. I managed to decipher that he said something like, "Not feeling so good, but I want to run." How great is that attitude? Of course, I told him there was no way he was running, but what a great attitude! No excuses. He is always there for the team.

How lucky I am that I get to coach guys like you?

Heading into Peoria this week we will have some challenging competition. A competitive environment can challenge your composure, but your job is to respond with even more poise and certainty. When the weather gets bad we don't even talk about it—it's not big deal. Zero degrees? Rain? Heat? Ok, let's run. We just respond with even more conviction. The weather is a challenge that we never flinch at. Let's maintain the same attitude with all things that test us. Saturday the competition is a challenge and I am looking to see how each of you responds. I am looking for guys who love competition and who sees competition as their way of reaching their best. It will be fun to watch for that on Saturday. I'd like to see guys like Hetzler, Beckers, Gleisner and others step up even more at Peoria and make a run at being an impact varsity runner for us. That doesn't mean running recklessly, but it does mean running with a lot of guts and hunger. As many of you notice, we have a bevy of great runners on this team. Ultimately, I know it will be as hard as ever to pick a 12-man state series roster. We will need some guys to emerge who have their sights set on state—not the top 7—*big* difference. Guys who have goals like top 7 scare me. Right now if making that roster and having that opportunity to run in regionals and beyond is a goal of yours, you will need to show the hunger, the poise, and emotional discipline, and the ability to get the job done.

Overall, great second week of training, great opportunities ahead...let's great ready for some big races!

**DON'T BE AFRAID TO BE EXTRAORDINARY!!!**

### **TIDBITS:**

- ✓ Thanks to the parents, family and friends who have been coming out to the meets and showing support.
- ✓ "Top 10" lineups for Soph and Varsity races will be announced soon.
- ✓ Saturday is the Peoria Notre Dame Inv. Travel time is approx. 2-2.5 hours. We will also be spending a little time on state meet strategy after the race, so we will not be getting back until early evening (more precise timeline is forthcoming). We can only take 50 of our 70 guys due to bus restrictions.
- ✓ Barbeque scheduled for post-meet. Bring what you signed up for.

**WHAT'S NEXT:** Goals for Peoria: Some of the top ranked schools in the country are there. Let's go get 'em.. PR's for everyone. Sub 16:30 Club for F/S and Sub 15:30 Club for juniors/seniors.

### **Sophomore:**

Team Totals:

18:45 It's obvious you aren't willing to settle  
18:46 Good race. Commit a little earlier. Good last phase  
18:48 Strong effort. Let's work on final phase—last 800.  
18:54 Sub 19:00—it's time to go for breaking 18:00 in Peoria  
18:54 Consistency in practice will be the key to your success  
18:57 Keep working—you have big potential  
19:07 I love your leadership  
19:07 Three and a half minute improvement since last year  
19:20 It's time to find the 18's.  
19:55 Nice finish. Use some of that earlier in the race. Work your way back  
20:08 We'll bounce back to where we know you can run. Keep your head up  
20:11 I love your determination  
20:13 Sub 20:00 is right around the corner. Work for it!  
20:15 You showed a lot of guts. Great last 200  
20:15 Your work ethic makes this team better.  
20:20 You keep leaping frogging people. Keep going. You are only beginning  
20:41 Almost a four minutes drop from 2011  
20:49 Work seriously and aim for a top 100 at Andrew in two weeks  
20:52 Let's aim for sub 20:00 within a couple weeks.  
20:54 Getting better all the time. Take care of the details.  
21:33 You've dropped 4 minutes since Time Trial!  
21:39 Practice toughness in the interval workouts this week and beyond  
21:48 Get with Pedz and push each other  
22:23 Even out the effort; work on mid race "slump"  
22:26 Went from 24:55 at time trial to this  
23:22 Commit earlier in the race  
23:52 I liked how you passed on the long straightaway.  
25:10 You showed some big improvement today  
25:15 Dropped over 2 minutes from time trial already!  
25:25 Try to stick it out with Ryan

## SANDBURG CROSS COUNTRY

### NEWS AND NOTES

*RUNNERS OF THE WEEK:* Mike Brower, Max Lehnhardt, Greg Burzinski, Denis O'Callaghan

Peoria Notre Dame Invitational

Saturday, Sept. 15, 2012

Mid to high-70s, sunny, calm, beautiful

#### COACH'S COMMENTS:

The Peoria Notre Dame Invitational is always a tough race—there are over 20 high quality schools there, there are over 70 total teams, and the race is always way too aggressive early on, which puts you in a tough situation—go out hard so you aren't buried, but not too hard so that you throw away your race. We run the race so that we can gain experience in a challenging environment that mimics the state race on the state course. We need to learn how to race where we focus on ourselves and not others around us. They should motivate you, but you focus on your execution of time, not place. When you do that, ultimately things find a way to order and you run the place you hoped for. If not, it is out of your control. One thing we need to focus on is “controlling the controllables,” and everything else is out of our hands. Times at Detweiller Park tell you where you are at—they are concrete indicators as good as a race on a track. At the same time, we are completely unconcerned about what place we take at the race, instead we are focusing on taking a strong step toward being ready for our big race at the end of the season or seasons in your future. We always want to focus on our progress toward our ultimate goals.

Some of us took the opening of the race as an opportunity to practice an aggressive start that will be needed for state. Others went out way too hard—letting the competition decide the pace, not us. We will need to find that balance as a team. The varsity got under way and we had a decent performance. We still have much work to do, but it was a decent step for many guys. **Doc** ran the ninth fastest time in CSHS history and is closing in on the record board in the Eagle Gym. He executed the race plan really well. He is ready to run fearless now, so we'll really get after it next week in Peoria and find our limits. It's time to dance! **Pat Letz** ran a PR after getting out a little slow (last year at state he went out conservatively and was 2:23—a full :10 faster than Saturday). I'm certain he can target that 15:10 goal next week. **Chris Hogan** was there and almost put together the full race. He'll need to finish if we have any chance to make some noise this year. **Nicholas Prajka** ran a below average race and still managed a 15:49. We need to see that crowd toughness I talked about last week and there is no excuse for a lack of kick. Had Prajka kicked we would have finished 5<sup>th</sup>! As it is, if we ran our target times, which were not overly ambitious this is what would have happened: Doc and O'Callaghan got their target times, if Letz, Hogan and Prajka kept it together and ran 15:10 we would have finished 3<sup>rd</sup> in front right in front of #2 ranked O'Fallon—that's a state trophy boys, I guarantee it! Belvidere North (2<sup>nd</sup> place) isn't in AAA and O'Fallon is definitely the second best team right now. That's all it takes! **Denis O'Callaghan** showed incredible toughness and executed right on target—hitting our target time exactly! I love his focus, poise and determination. I am so glad he came out for cross country because he is making a huge impact right away. 15:45 in just his second race is so impressive—it shows that you don't have to have experience; you just have to have toughness. Meanwhile, the **Becker Boys** continue a great season and stepped into the toughest competition in the country really well. They are prime candidates for Most Improved, dropping 1:49 and 1:30! I was also happy with **Bill Siezkowski's** progress. I wrote after Lyons that we are looking for him to get down to that 16:00 barrier soon and he already is at 16:08. I'm sure he can drop another half a minute this season. Overall, the varsity has some areas to improve on, but we are in good shape. I screwed up the race plan for some of our guys and we'll improve on that area. One thing for sure: we will be physically ready to run our best in a few weeks. The question will be, can we be determined and composed enough to handle the adversity and competition? I am betting on it! Meanwhile, our F/S group keeps rolling. We were disappointed with a 2<sup>nd</sup> place finish and expect to win every race we are in. We had a couple guys fall off when it got tough, so we'll need to respond better in order to continue our winning ways. On the whole, however, I absolutely love the mentality of this group. They are a bunch of champions. Look at **Sean Torpy** who doesn't for a second place himself behind anyone! He's been beaten by Brennan a couple times and he not only doesn't mentally place himself behind him, he doesn't place himself behind *anyone*. He went right after the victory. His opening 800 was the fastest of ANYONE on our team for the day, so he was hurting badly, no doubt, but he kept on pushing and kept on fighting. So many people would fold at that point once he was caught, but not him. I am so impressed with his mentality. He's a champion. **Tom Brennan** likewise was super tough. He battled the entire race and came out ahead of the O'Fallon guy in the final 800—something that could have determined the team race. **Brian McMahon** continues to amaze. He was out fast, but like Torpy kept battling and ran yet another PR! What more can we say about **Max Lehnhardt**? Incredible. The guy just keeps getting better. I

wonder if last spring he could have imagined starting a 3 mile race in 5:13 and just keep going? He's got every ingredient you need to be a great runner. I am so excited about him. Look at **Greg Burzinski!** 16:15 is one heck of a time. He had that look I love to see—hunger. Every time I saw him I could tell he was hurting but he simply kept fighting. Awesome stuff! Finally, the guy who had the race of the day was **Mike Brower**. I love this guy—he is a leader and has the right blend of determination and lightheartedness. He's always happy and excited and that is part of what makes him run well. He really got after the race and dropped nearly 3 minutes from 2011's race. Amazing! He is so improved and is an incredibly good sophomore runner now. I love that we can count on him. Very much a part of this group are guys like **Anthony Lifonti, David Gleisner and Collin Weber**. Those times are fantastic. Lifonti had a HUGE race. I hope he sees himself as a *great* runner who will become even better. Can Lifonti, Weber and Gleisner do what Burzinski did this year and go from 18:00-16:15? Sure they can. I also was really happy with **John Markey**. I was at the finish line and I watched him cross and it was immediately apparent that he had given everything he had. It was great to see. I'm really proud of who he is and how much he's progressed. Sub 18:00 is a great representation of that.

This is what I wrote about Jimmy Panozzo in the write up for PND last year:

**"Jimmy closed out well, but he is behind where he should be right now and will need to prove that he can handle the big meet situations in order to help us out."**

He made the big choice to step up and find the extra something that makes athletes special. He ended up running 15:27 at state and scored for our 7<sup>th</sup> place finish. He was stressed, had doubts, had "bad" momentum, but he just let it go and decided he needed to show some guts out there. I am hoping others will do the same. I am expecting our seniors to act like seniors and be the toughest, smartest, strongest, fittest runners out there. They should showcase all that they've discovered about their own greatness over the past few years.

It's now time for us to get super fit and super race sharp—that is what this time of year is for. We've accomplished some great aerobic strength, neuromuscular and lactate work, now is the time for race-specific sharpness and speed. It is exciting to know where we are heading. The pieces are there, now we need to take the step. The biggest step will need to come from your head—confidence, belief and the toughness that a champion needs, not just an "also ran."

**TIDBITS: »THANK YOU for the BBQ!!!**

**WHAT'S NEXT:** A good and important week of training. Next week we have a big week with our F/S hitting the Andrew F/S Invitational. Next Monday should be the conference meet for junior high school. We will be sending our team out there to "talk" with the junior high runners— wear CSHS warm-ups NEXT Monday!

## NEWS AND NOTES

*RUNNERS OF THE WEEK: Colin Weber, Pat Bieszke, Matt Benz-Weeden, Pat Letz*

Andrew/Loyola/Peoria Inv

Thurs. Sept 27, Sat. Sept 29, 2012

Mid-60's, calm (Thur), low 70's, sunny, calm (Sat.)

**COACH'S COMMENTS:** The Andrew meet is one of the highlights of the year for me. This year was no different after we brought the Grand Championship back to Sandburg after a year hiatus! **One point victory!** What a great lesson: no one can ever know that we are going to win or lose by a single point, but the guys ran like it and as a result they had no regrets. One guy not putting in an all out effort would have sent LWC home with the Grand Championship. It is so much fun watching the future of the team run, and while I watch them I think about the possibilities of the future. Meanwhile, the juniors and seniors are realizing those goals and dreams that we set two years earlier. Our freshmen got the ball rolling great on Thursday. We knew it would be a close battle between LWC and **Tom Brennan** and **Sean Torpy** got after it and took the lead to LWC's frontrunners. They then pressed in the little pond loop. I saw that they were hurting but they kept pressing. Torpy lost his lead and was overtaken by two guys before the downhill with 600 to go and he managed to fight right back and re-take the lead and hold them off. That mentality is exactly what we are lacking with some of the juniors and seniors. **Max Lehnhardt** and **Paul Sieczkowski** also battled it out for us in the second mile. Paul passed 12 guys which helped significantly in our victory. We were losing by 13 heading into the second mile and we came out champions. What a great lesson— regardless of where you are, if you are willing to fight for it you can pull it together. **Collin Weber** has been a tremendous freshman runner for us this year. He had two great races this week. I love how hard he works and how aggressive he is despite sometimes not being in the top 7. I am certain that Weber is going to factor into how good we are going to be in the future. His work ethic and competitiveness are going to make him one of the best runners on the team. The **Sophomores** at Andrew had a solid race, but not necessarily an inspired run. We lost the team race in the last 800 meters. They have really stepped up their game this year and I love to see them compete, but if we want to be SWSC Champions a "solid" performance isn't going to cut it. Many of them had strong races and it's really exciting to see **Greg Burzinski** step up to be a varsity-caliber runner. He is someone I am considering for the state roster and looks capable of scoring for us. If he gets another crack at Detweiller he'll be under 15:45. It was also exciting to hear the results from Loyola and hear that **Pat Bieszke** ran down a solid time and place to lead the sophomores. After two races in a row where he quit in the last 800 it was exciting to hear the finish he had. We are going to need him to compete upfront at SWSC. Like Greg, he is right in the mix for varsity spots. I have no doubt this team is going to throttle LWC at conference, so much so that I am drawing up a plan for us to sweep the first four spots and have our next three come in right after them. It's going to be a lot of fun. We'll be out at Joliet this Saturday to prepare for the conference meet. We are going to need everyone to believe they are #1 runners at conference!

At Loyola we saw some more mixed results. I loved that **John Markey** battled through some tough breathing issues to step up and run at Loyola— and run well! I gave him the choice to run and he came through with a great performance! I love his attitude. The varsity ran a generally uninspired, flat effort. Again, this is not going to cut it. We are way too controlled and not willing to hurt. Check the bolded splits. These are obvious areas where we had mental weakness. **Ethan Dee** is coming back to form and will be ready to lay it on the line this weekend. **Matt Sawyers** had a strong effort after being out for a long time. In the meantime, I am certainly at fault for our poor performances. I make sure you guys are physically ready in the coming weeks. I keep seeing great things in practice, so I know we are physically ready and I'll have to make sure we are ready physically on race day— this is totally my fault.

At Peoria we made some progress. We ran a much more aggressive race from two weeks ago. Our final times are not where we need them, but we put more than half the target race together. We'll be able to finish that race in a month. I was so excited as we exited the North Loop. I thought we might be able to run home and have an all-time great day. As it was we fell back in phase 3. We'll need to tough that out if we want to win Sectionals and trophy at State. We won't be able to have Doc quit the last 800 like he did, we won't be able to have Hogan shut down after the 2 mile mark, we won't be able to have Prajka think he is not as good as Hogan, we won't be able to have Bill completely shut down the last mile. I liked that we had better efforts in the final 300 from Prajka, Hogan, and OC. Let's put the whole race together! Meanwhile, **Pat Letz** has been the most consistently reliable runner I've ever coached. I love his toughness and that I never worry about him. He doesn't perform any miracles— he works really hard, he has confidence, he doesn't over analyze, he keeps improving and he's super tough in races. This process has resulted in him chipping away now below 15:15. I am confident

he'll continue to do that for the next month. He is exactly what we look for in a senior— consistent, hungry, and tough. We need to be able to rely on seniors. Will Becker is also having a great progression. I love watching him race. He's so determined and I always count on his big time finish. He's certainly a reliable varsity runner and dropped :17 in just two weeks! He's done it in crowded and competitive fields and only gets better when the competition gets better— I love to see that from guys. It's a true sign of a champion.

SWSC is going to be a battle. LWC's varsity beat DGN (who beat us at PND). We know that LWC's sophomore team is tough as well. We are going to have to fight hard for the victories. We know that Sectionals is going to be extremely tough. It's going to be packed and rough. There will be six top 10 teams in the state there. We'll have to be ready to hurt more than the rest in order to win Sectionals— a definite goal of ours. It will come down to who is willing to hurt more from 1.5-3. That's the bottom line. Lyons beat NV and we had the opportunity to bounce on them the first week and didn't respond mid-race. We will be ready physically to win Sectionals and then get down there and go after a trophy at state, but are we willing to hurt enough for it? The great thing about it is you get to decide the outcome. What will your story be moving forward? Every team reaches this point and the ones who become champions decide that they really are hungry for their goals. For us to accomplish our goals, we are looking for tough-minded warriors. I look for that before I look at the times. We have no interest in putting someone in the Sectional meet whose goal it is to "make the top 7." If that's your goal, you've already failed because I'm not going to put you out there. I want people who want to do everything they need to for our team and for the team to accomplish its goals.

"If I had eight hours to chop down a tree, I'd spend six hours sharpening my axe." This mentality is one in which we know what we are doing, believe in what we are doing, and when others are running around trying to accomplish big things, we are preparing the right way. And when the time comes, we'll be ready to run people down. This is what we are all about. This is who we are. It's not about where we are at the beginning, because so many of you had humble beginnings. It's not about where we are in the middle, because so many of you have so many goals to realize. It's about how we finish. How we finish races. How we finish as seniors. How we finish after we leave Sandburg. It's about our ability to Finish Strong.

As we continue with our training and begin to hit some serious training weeks, you will need to keep a positive frame of mind. The biggest trouble runners run into in the final weeks of training is that they start to overanalyze how they are feeling. It's almost as if they need to prove to themselves on a daily basis that they are as good as they hope they are. Here is what you need to do: be confident. We are going to be ready at Conference, Sectionals, and State. When it's time to dance, we'll be ready. The question is: will your head be ready? I don't see the belief out of everyone. I see guys who are finding things wrong. I see guys who have something go wrong and they don't respond to it; they don't break down the barrier that stands in the way. Now, this isn't everyone. It seems that the freshmen and sophomores have the most determination and the most belief right now. I see the fresh-soph team coming together with some real confidence and vision. You have to decide who you are. Are you good at talking about running, or are you good at running? Just remember: we set out on this journey because we knew it would be hard. In fact, the difficulty of the task was the appeal. I can guarantee that every person who has done anything special had to encounter barriers but refused to let them stay in the way. It's time to bust through. While we were all over the place this week, separating on more than one occasion, we are all doing it for each other. We find strength in each other's support and competitiveness. As we approach conference, we will come together to bring the titles home to Sandburg.

**TIDBITS:** »THANKS TO B-W and JJ for doing recon work for us at Lockport. Boy, with guys like that giving up their Saturday to help the team, the boys who run at Sectionals better be ready to come through! »You are required to wear our school warm-ups to meets. I don't care if you have the great track jacket ever, wear our warm ups. »Warm clothes required for practice »Wash your hands, get enough sleep. »We will be deciding a limited post season roster and will invite people to continue running by the end of the day at conference.

**WHAT'S NEXT:** A good week of training and the Chicago Marathon Race on Sunday (7 runners only).

## SANDBURG CROSS COUNTRY

### NEWS AND NOTES

#### *Northside/Southside Nike Chicago Marathon Challenge*

*RUNNERS OF THE WEEK: Chris Hogan, Nicholas Prajka, and Coach Jonaitis*

Sunday, Oct. 7, 2012

Mid 40's, slight headwind

#### COACH'S COMMENTS:

The Nike Northside/Southside Challenge provided seven of our guys an unforgettable experience. To be able to race down Michigan Avenue and into the Chicago Marathon finish line was something special. The biggest lesson—or reminder—by far from Saturday is the power of HAVING FUN!! Running is so much fun. As I said last week, I never want runners I coach to go around talking about how hard cross country is. My number one goal is that our guys go around talking about how much fun we have. Running is a blast. The Chicago Marathon is an incredibly fun day. Yes, it is challenging. Yes, it requires lots of effort and guts and determination. But, for the very few people like us, that stuff is so much fun. Most people discover this later in life. Look at the 45,000 people who ran on Sunday! We figured it out early. How lucky are we? We had some strong performances most notably **Chris Hogan** and **Nicholas Prajka**. Every indication is that these two guys are going to finish out their senior year the way I hope all seniors finish—with determination, passion, and reliability. It is our seniors who need to be the most stable forces on our team. Standing on the Roosevelt Bridge is quickly turning into one of my favorite moments of the year every year. I have literally no idea how we are doing and by that point the race comes down to the final 400. So, it's with true curiosity that I wait and watch for people to take the turn and head up the hill. After Doc came around the turn with a good 4-5 second lead I saw a pack of runners rounding the turn with a certain Chris Hogan charging up front. Wow! And it is plainly obvious that he had no interest in falling in with the pack. He wanted to pop out. It was great to see the replay on NBC and watch Hogan finally pop off that wicked speed I've seen in practice and run off the front of the group for a 2<sup>nd</sup> place. Here is the deal: Doc ran 13:11 last year, Rees ran 15:20 two years ago. Both of those guys ran 15:00 or faster following that effort. What does that say about our four front runners? With Prajka now joining the mix, this is how we win state. If we go back to letting the crowd get in our heads, then we go back to be a good team, not a great one. We had four of our seniors absolutely nail the race on Sunday. Along with Hogan and Prajka, **Doc McMahon** took home individual honors and **Pat Letz** continued to get the job done and finish really strongly. It was great to see those guys take the turn with 150 to go and turn on the blasters. *We know we have them*, so it's a matter of being tough enough to use them! While **Graves**, **Siezckowski**, and **Dee** didn't have the big races or kicks that I was hoping for, I expect those guys are going to turn on the afterburners here in conference week. They are too darn tough and too darn determined to be denied. I am counting on them to battle their way back up to the horsemen and finish the way I know they can. Let's not forget the lesson from this race: we are a great team when we run to our capabilities and have fun! When we get too uptight, lose our enthusiasm, or get caught up in the crowds of a tough race, then we lose what makes us great: our passion!!!

Now, how about **Coach Jonaitis**!! That guy made running 5:20 pace for 20 miles look like a stroll in the park. Those world class women were lucky to have a guy like Coach J pace them. And consider this: this guy gets paid to pace one of the top marathons in the world and one of the greatest international races on the planet and you got him pacing you at practice every day!! Coach Novak asked me if Coach J was nervous to do the pace work—it's a big job—and I said, "Jonaitis never gets nervous. He knows what he can run and he simply goes out there and runs it." We all can learn from him! One huge lesson we can learn from him is what consistent hard work does for us—he's one of the best runners in the country and he didn't even finish all-state in high

school. He just kept working—kept *outworking* people—and he became a stud. The same can be true for all of us while we are in high school and beyond.

Moving forward, everyone has a job. Next week's varsity and sophomore race will be similar to this race in that it will be a low scoring meet and we will need to close the door and get the job done or else we'll be a couple points out of the running. There are two places for us next week: the half mile after the mile mark and heading into the woods with 1k to go and rolling through. Emerging from the woods is 300 meters to go. Remember: every pass of a Lockport or LWC guy is a 2 point swing, so let's get after them and get it done.

Wow, it's hard to believe that we have reached the Conference week already. This serves, once again, to remind us how brief our time is and how we are obligated to take advantage of opportunities while they are in front of us. Talk to the seniors this week and you will realize how quickly your time goes by in high school. The greatest accomplishment you can have in this sport is to finish your senior year with no regrets. If you can run your final race and believe that you worked as hard as you could, treated others with care, decency and class, acted as a leader, contributed positively in every way possible, then you can leave with the greatest award possible: the feeling that you did the best you could with the time you had. You will be a champion.

As we run our final race(s) of the season, I ask that you make sure that you give it your best shot and run with confidence. It is an endless belief in yourself that will be your greatest asset in your final race(s). Going to the starting line with a doubt is essentially guaranteeing a poor performance. Believe in yourself and be bold.

**MOST OF ALL, OUR #1 GOAL FOR THE END OF THE SEASON IS TO HAVE FUN!!!!**

**TIDBITS: »**

- ✓ Turn in gear next Monday. We'll do Runners of the Week, etc. and collect gear. You will not receive any awards or patches at Awards Night if you do not attend next Monday's practice. You will also be fined. This meeting is mandatory. You **MUST** bring your gear unless you are competing at Regionals. Anyone who turns in gear late will be the last people to get their gear in 2013.
- ✓ We will be taking around 15 runners to the state series. Alternates will be the coaches' decision. Alternates are based on times, attitude, and probability to run state in the future. They are based on the team's best interests. We always want to look to the future and get runners experience.
- ✓ We **DO NOT** have the varsity Top Seven already decided. Don't assume that you don't have a chance to make the varsity if you haven't yet. We have a month until State. We want people who run better when the stakes are higher and have enthusiasm.
- ✓ Congratulations to the seniors. Thank you for your hard work and commitment to the team. Savor your last moments of high school cross country. You will be missed!!

**WHAT'S NEXT:** Conference at Joliet/Channahon Park on Saturday. Goals: win all levels including taking the top 10 spots in the open race.

**SWSC lineup:**

**Varsity:** W. Becker, Hetzler, Hogan, Letz, McMahan, O'Callaghan, Prajka

## Coach Novak's Top 10 of the week

- **Chris Hogan**  
What a race by Chris Hogan at the Nike Northside/Southside Challenge! Just 2 seconds behind Pat McMahon – awesome!!
- **Chris Hogan**  
You don't get to be Coach O'Malley's favorite for no reason. Way to go, Hoge!!!!
- **Chicago Bears**  
Another easy win for the Bears to move to 4-1. With the defense scoring a couple of touchdowns per game, they don't even need Jay Cutler. Of course, if Chris Hogan was on the Bears, they'd be undefeated right now!
- **Pat McMahon**  
Great race by Pat McMahon for the win on Sunday! But I'm dissapointed that he didn't mention Chris Hogan during the TV interview.
- **Coach Jonaitis**  
Awesome job by Coach Jonaitis pacing the Chicago marathon on Sunday. He looked great on TV. Of course, if Chris Hogan had been doing the pacing, I'm sure we would've had a new women's World Record.
- **Pat Letz & Nicholas Prajka**  
In a somewhat futile effort to catch Chris Hogan, these two worked well together to kick down the rest of the field at the NS/SS Challenge. Great work guys – let's stay together the rest of the year!
- **Chris Hogan's parents**  
We should all be thankful to Chris Hogan's parents. Without them, there is no Chris Hogan.
- **Matt Ryan**  
If Chris Hogan was a quarterback, he'd be Matt Ryan. And he'd be beating RG III every day & twice on Sundays!
- **Matt Tegenkamp**  
This is one lucky guy. I mean, he looks like Chris Hogan!!!
- **Max Lehnhardt**  
Could Max be the next Chris Hogan?

**Song pick of the week:** The theme song from "Hogan's Heroes" written by Jerry Fielding. It's not really the greatest song, but it does have Hogan in the title.

Overcast then rain(open race), mid 60's, calm

COACH'S COMMENTS:

Wonderful job this season. Hopefully as you reflect on the season you will be filled with a sense of pride, knowing that you did everything you could as a runner and a teammate to contribute. If you do reflect on the season and can think of the ways in which you contributed in different meaningful ways, then you really do have a lot to be proud of. Congratulations to **Pat McMahon** and **Harry Becker** who were conference champions. Congrats, also to our All-Conference runners listed below. McMahon defended his SWSC title and joined Kevin Adamowski, Zach Dahleen, and Lukas Verzbicas to contribute to 9 consecutive SWSC individual titles (2003 was the last year we didn't win the individual title). Not bad company.

I am really proud of our F/S team. While we didn't get the victory we were hoping for, we did what we could with what we had for that day. Tom Brennan being sick certainly did not help things. We'll need to figure that one out for now and the future. We can't have him going down this hard every time it gets cold out. He's had a tremendous season and provided he gets healthy and shows his health in practice, he'll get a chance to run for our state series team. Meanwhile we waged quite a battle with LWC. Heading into the final 1k we were down by two points, which means we simply needed to pass one LWC guy in order to tie with them, two to win. Unfortunately Tommy was heading backward due to his illness and we didn't get any more passes. LWC battled their way to the title and earned the victory— they did some passing in the final stretch and they should get credit. **Greg Burzinski** ran with fearlessness and went after the conference title. He needs to tough out the final 800 a little better. I challenge **Pat Bieszke** after the mile mark to make something happen for our team— we were getting beaten. He responded and moved throughout the next mile and put himself in a great position to finish out. **Sean Torpy** looked a little tired this week but ran a strong race. I am looking for him to go back to that fearless racing style I am so used to seeing next week when he gets a chance to race the IHSA Regional. Still, he and the rest of our guys ran fantastic times. It just shows what we are up against with LWC for the next few years. Realize this: the previous SWSC Sophomore record was 16:16. We had three guys beat that! **Max Lehnhardt** and **Dan Laskero** have had incredible freshmen seasons! I am really excited about these guys moving forward. They've run great times and they've shown the work ethic and determination needed to be great.

I hope the sophomores all realize what they are capable of and the amount of hard work and commitment it will take to get there. It will take people running year round. And to the freshmen: it is going to take a huge commitment in the winter, spring and summer for you guys to come back and get that SWSC title and work toward a state trophy. You need to join Polar Bear and track and obviously summer camp next year!

Our varsity race was so much fun to watch. As the rain began to threaten we were bringing our own storm to the SWSC. We went out rocking fast through the mile mark. By comparison, Doc last year was leading at the mile mark with a 5:09. At that point **Doc McMahon** had the race in his hands and **Chris Hogan** was attacking in 2<sup>nd</sup> place. **Pat Letz** and **Nicholas Prajka** were filing in right behind and Letz appeared to be moving. At this point we had a shot at a 1-4 finish! Prajka just needs to stick it out from 1.5-2.5. He finished strong and we'll need to continue to see that in our big races. There are lots of points sitting in that last 400. Hogan and Let kept battling with the Lockport and LWC guys and Letz just keeps getting better as the race goes on. Letz is just plain tough. Those times are rocking for those first four guys— and if Prajka closes out the year with Hogan and Letz then we are in real business! We can't give ANY seconds away. NO gaps!! For comparison sake, many sub 15:30 guys at Channahon go on to run 15:00 or faster at state. We are looking for those four guys to continue what they've done and keep that awesome momentum and passion going. We are looking like four guys spread between 14:40's and 15:10. Now we need a five guy to close the gap to our 4 under 10 seconds and we will be holding trophy in our laps on the way home from state! **Will Becker**

just keeps getting better and I love his toughness. Can he commit a little more a little earlier and still maintain that awesome final mile that he's had? If so, he might be a guy who can close the gap to under :10. What a great race and All-SWSC finish! Denis O'Callaghan ran a tough race, but we'll be looking for more. I am certain with the additional of anaerobic workouts OC is just reaching his best stuff. We'll see some big time drops like he had his full track season. Matt Hetzler also ran a tough race and hung in there just missing All-SWSC, but he keeps getting better and figuring out the races more and more. Our varsity group is so deep right now and we have a lot of work to do over the next couple weeks. We have our hardest workouts still and this group just seems to feed off of those tough workouts and keep rolling. I am really excited to see us improve.

Finally, the Open Race was awesome! The rain came down and our guys ran with so much passion. I was so inspired by all of our guys racing their hearts out in the rain— what a perfect final race! We had a five man pack rocking and rolling up front, totally separated from the field. They could have easily just maintained the pack and let off the gas. Instead, they kept fighting and pressing. At one point Ethan Dee fell back from the group and I thought, "Ok, Ethan has fallen off." Then the next time I see him he emerges from the woods charging into 2<sup>nd</sup> place! Amazing. That is Ethan— a true fighter. Meanwhile, Harry Becker was putting on a clinic! That guy was stepping on the gas with 1k to go entering the wooded loop. That guy was sick for a while and found the strength to battle through and step up and win when he most needed to. There were so many inspired races in this one I couldn't stop yelling! Every time I saw Brandon Lukas I got really fired up. After a tough stretch of season he battled back to have a final race in which he rocked. He has such a promising future. We are counting on him finding his way all the way back to the front of the pack. This was a huge race and a great day! Mike Stefik looked like he had the fire in his eyes that I've loved seeing for four years. He is the toughest guy on the team. He rocked his last race with everything he had. Then we had a group of young runners who are going to factor in bigtime to our future teams. Brian McMahon's improvement is astounding. He's going to continue that all the way into the varsity lineup someday. Paul Siezowski is one of the most impressive freshmen runners I've coached. I am so excited about him. David Gleisner, Collin Weber, and Anthony Lifonti ran some great races. The rest of the freshmen look awesome. It's going to be up to them to work all year to get us that SWSC title next year. So many of them look like future stud runners, I'm so excited to work with them in the winter, spring and summer. I hope they and the rest of the young guys look at the times of some of our faster runners from last year and see how good they really are. Luke Vanderkrabben ran a great final race and has been a phenomenal leader for our team this year. We are so lucky to have a guy like that committed to being the kind of teammate he is.

We had 35 people break 18:00!! On a whole, I couldn't be prouder of our team than I was on Saturday. We were the last ones to leave the course because we are such a family. On top of winning the varsity SWSC title once again, we were a team full of passion and pride. What a great day! Let's keep it rolling!

## NEWS AND NOTES

### RUNNERS OF THE WEEK:

IHSA Regional @Midlothian Meadows  
Saturday, Oct. 20, 2012  
High 50's, sunny, calm

### COACH'S COMMENTS:

On the whole, Saturday's Regional was disappointing. With the exception of **Sean Torpy**, I felt like we fell a little short in our attempt at winning the Regional title. I am the one to blame for our underperformance. I didn't have us ready with a game plan to win. That will change. We looked awesome heading into the woods—really poised and ready to win the thing. With five guys spread from 8 to 12, we looked like we were hunting people down. I loved seeing all that Blue and Gold flying together. At some point Burzinski quit and our pack began to spread out. We still had guys in there fighting, but ultimately we expect to win every race we are in once Championship Season comes around. With the exception of Ethan Dee, it was everyone's first IHSA race and there will be more to come. We have to be ready to win when it comes to Championship season and you put on a Sandburg jersey. The **Beckers** need to have a little more emotional discipline and keep it together—no more rag doll stuff. Having said that, they have had terrific seasons, and I expect Will to continue that heading into some exciting races. The bottom line is, I feel like this group is about 10 seconds off from where we need to be. If we get our 5-6-7 down under 15:30, and our first four keep it together, then we are ready for a trophy.

Listen: Sectionals and State are going to be real battles. It's nothing we aren't used to—we've raced these kind of races before, but it's not going to be like SWSC or Regionals. It's going to be crowded, a lot of bumping, a lot of emotions. We need to do what we do best: run our race, run with toughness, and be champions. Our goal this week is to **win Sectionals**. In order to do so, we are going to need Doc to keep controlled early in the race—he runs best with a good position, but not going out blazing with the leaders. He can go at it after the first 1k with a position inside the top 15. Then he'll have to run like the champion he is. We'll need Letz to continue to be tough as nails. He'll need to find the most efficient decent position as possible and run tough the second half. He can't be buried in 100<sup>th</sup> place though. We'll need Chris Hogan to be the Chris Hogan of the last two races; confident and willing to fight. He's going to get banged around a lot early on and he'll have to be good with it so that he is still running happy and hungry. Prajka is going to prove that he can run in a crowd and still run with Letz and Hogan. He'll get banged around as well and he'll need to stay engaged regardless of where Letz and Hogan are. We'll need OC, Brennan and Becker to be willing to fight through some crazy crowds and pull through with their toughness. We are counting on our guys' middle of the race toughness and ability to run through pressure, tough conditions, packs of runners, or whatever may be thrown his direction. I'm betting on us to get out up front and fight it out to a Sectional title. Here is the situation: it's going to be a boxing fight. You have two options, you can put your hands up and try to block punches, defending yourself and hoping for the best. Or you can come out swinging. We'll need seniors to act like seniors and we'll need our two juniors and freshmen to bring excitement and determination to the race. If we do that, we'll be champions.

**TIDBITS:** » Buca Di Beppo on Friday, 5:30. Bring \$15. » ALL 12 GUYS NEED TO BE READY TO RACE NEXT SATURDAY. THAT MEANS LITTLE THINGS (BRING UNIFORM/SPIKES) AND BIG THINGS (MENTALLY READY TO RIP AND STEP IN).

**WHAT'S NEXT:** IHSA Sectional at Midlothian Meadows at 12:00.

**The Week Ahead:**

**Monday's workout**— Race Pace with shorter recover than we've had. This workout simulates the exact demands of our target race— the state meet. This is the toughest workout of the season. We continue to get better every week and this workout will give our bodies a huge stress that will provoke significant improvement. If the thunderstorms rain us out then we'll do it on Tuesday  
**Notes:** get yourself recovered as best as possible this evening. A good meal with carbs and protein and not a lot of fat or grease will be great. Drink lots of water and get a great night of sleep. You recover best while you sleep.

**Tuesday**— 8 miles on trails

**Wednesday**— 6 x 200

**Thursday**— 5-6 miles easy

**Friday**— easy 30 and dynamics. Buca di beppo at 5:30. Bring \$15.

**Saturday**— bus time 9:30/10:00. Race starts at 12:00. Be ready to roll.

## NEWS AND NOTES

*RUNNERS OF THE WEEK: Tom Brennan*

IHSA Sectional @Lockport

Saturday, Oct. 27, 2012

49 degrees, wind, sunny

**COACH'S COMMENTS:** Well, let's start with the good stuff: **Doc McMahon** ran a fantastic race. He ran perfectly positioned, tough, and very fast. He ran with two kids who will be in the top 10 next week (I'm thinking around 4-8<sup>th</sup> place) and was there until 300 meters to go. So, he ran a perfect race for 95% of the race, then went backwards in the final straightaway. He needs to stay inside himself and not hear the noise or see the other runners, stare at the finish line with excitement and run a smooth gear shift into sprinter form. Other than the last 30 seconds, he ran a tremendous race. **Pat Letz** and **Chris Hogan** worked really well together. They worked with each other and made the race more manageable and accountable by running side-by-side. They were too far back early in the race (in the 40's halfway through the race!) and were bested by the Lockport guy that they manhandled at SWSC, but they got the job done by fighting back in the second half. Weaker people would have bagged it and stayed in the 40's. **Tom Brennan** ran a simply incredible race. He ran a huge PR and showed he is a gamer. He did what I wanted guys to do: get up there, stick your nose in there and race tough the second half after you've committed early. As a result, he had the best race of the season yesterday. We should all follow his lead. Following that up, **Denis O'Callaghan** and **Will Becker** didn't have great races, but they ran :10 faster than last week and kicked from 400 out like crazy. They didn't wait for the final straightaway, they took off with 400 to go.

As good as Tommy ran, we shouldn't have been depending on him like we did. We should have had six guys in front of him. Outside of Doc, we didn't get out too fast, and Prajka completely folded in the race 800 meters in and did exactly what I was talking about on Friday—he ran, he didn't race. He is main reason we lost that meet. I was at the 700 meter mark and I thought, "Prajka has already quit." And he only went out in 2:26, which was only a second or two ahead of our pack's opening at Regionals. I saw him race twice—the first 200 and the last 100 when he was caught by our guys. Even with 300 to go I didn't see any fight. When you look at the results, we know we can beat Giroux and Neuqua's #1. If Hogan, Letz and Prajka run with Giroux and Neuqua's number 1 guy we would have won the meet. We've done it before. Hogan and Letz were about 8-10 seconds off, and Prajka didn't show up. So, Hogan and Letz need to commit a little more and Prajka is going to need to decide if really wants to race or not.

What we are looking for is for everyone to put together their best race. This has been the goal the entire way. We have reviewed Detweiller extensively, will do it more this week, and have raced there twice. We know what we want to do: most of you will run off and attempt to secure a strong spot in the first 800 (watch it Doc!), hold our positions up the hill and hammer the north loop to the top of the course after the two mile. Also, no "it went by in a blur." Get out there and roll and be aware of what you are doing. Don't betray all of your preparation by letting the race happen to you. You should happen to the race. We know how we want to run, we know what to expect with crowds and circus. Be okay with all of that stuff. We are ready to go. Now all that is left is your confidence, focus, and effort. We need Doc to run his race and PR and for us to get the split down to under :30. If that happens, we'll win a trophy. In the mean time, you need to focus on accomplishing what we need to accomplish each day. Your preparations are not done. Don't let go of the process. **HOW HUNGRY ARE YOU?**

**TIDBITS:** >>Be sure you get enough rest ?>>Don't over eat >>wash hands

**WHAT'S NEXT:** IHSA State Meet at Detweiller Park at 2:00 p.m.

**Results:**

1. Lyons—74 2. Plainfield So—115 3. Neuqua Valley—118 4. Sandburg—120 5-Hinsdale Central—160

We could have easily taken 2<sup>nd</sup>, even after a below average race, if we would have drilled the last 400 (not just the last 100). Take a look at us and Plainfield South: they outkicked us at every guy except Letz. This is the difference between a trophy next week and a top 10 performance. At state, of course, the fun part is that everybody matters. When we race invites the guy we are passing helps us by lowering our score and it may or may not be a rival team. At state, every guy is on a good team. There is no hiding—you can beat them simply by passing them.

“It’s not until after the fact that you realize what a fine line that really is. The state is filled with reasonably talented runners, and the real good ones are the ones that make a very basic (but difficult!!!) decision in the middle of the race to not be scared and to run offensively rather than defensively. I know your guys can make the right decision and have a HUGE day. Almost everyone is running scared out there at most races, especially the state meet. If you’re in on the secret, and you can stand on the line and not feel fear, you’ve won the battle. Much easier said, but it can be done.”

**-Jeremy Borling**

"I was giving up. I would have given up--if a voice hadn't made itself heard in my heart. The voice said, "I will not die. I refuse it. I will make it through this nightmare. I will beat the odds, as great as they are. I have survived so far, miraculously. Now I will turn miracle in routine. The amazing will be seen every day. I will put in all the hard work necessary...I discovered at that moment that I have a fierce will to live...Some of us give up on life with only a resigned sigh. Others fight a little, then lose hope. Still others--and I am one of those--never give up. We fight and fight and fight. We fight no matter the cost of battle, the losses we take, the improbability of success. We fight to the very end. It’s not a question of courage. It’s something constitutional, an inability to let go..."

SANDBURG  
CROSS COUNTRY  
NEWS AND NOTES

IHSA State Meet  
Saturday, Nov 3, 2012  
48 degrees, overcast, calm

COACH'S COMMENTS: Well, Saturday was not exactly what we were hoping for, but one thing I am certain of is that, knowing you guys, you gave it everything you had to run to the best of your abilities. The day was super fast and we ran the 4<sup>th</sup> fastest composite time in school history. Unfortunately we didn't crack the top ten, which is a place we expect to be every season. We did drop almost a full minute off our team time from Peoria Notre Dame, so we made some huge improvements even despite not clicking on all cylinders. We had some courageous performances out there. **Doc** ran a great race until his finish, once again, and managed to hang on to a 14:58. Off of him we ran a :38 split, which is a great team performance when you think about splitting sub :40 off a sub 15:00 guy, but it wasn't enough to accomplish our goals. Doc finished an incredible career—one of the All-Time great Sandburg runners. I know he'll be even hungrier for that blue track this spring! **Chris Hogan** may have had the race of the day. When Letz was in trouble with his shoe, Hogan had to adjust the plan on go off on his own. He ran a tremendous race with a huge PR, running a 15:05 chip time, rounded up to 15:06. That puts him in the upper echelon of All-Time CSHS runners. I was so proud of Hogan and the way he ran, especially thinking about where he began as a freshman. I hope we have freshmen and sophomores who look to Hogan as an example of what they can become if they have the desire and commitment of Hogan. **Pat Letz**, the most reliable runner we've ever had, had terrible luck of losing a shoe. Somehow he battled on and managed to run near his PR anyway. We certainly could talk about what he might have been able to do with two shoes but that is a loser mentality. I love that Letz didn't bother with that kind of mentality—instead he responded and fought through. He went from 128<sup>th</sup> (team score) at the mile to 56<sup>th</sup> (team score) at the finish! That is a guy who just wouldn't quit. I couldn't be prouder of him. **Nicholas Prajka** was buried early on with Becker and fought his way back up for a PR—a great way to end. **Will Becker** was once again awesome and finished out with a big PR and is our top returning runner for 2013. It's amazing what consistent summer training can do! I love his hunger and tenacity. It's one of my favorite things to see: Becker with 800 to go! What determination! **Tommy Brennan** got his first taste of the state meet and will be dominating this thing for years to come. He really went after and fell apart in the final 800, but we know he has an exciting few years. Finally, we got to see **Denis O'Callaghan** tearing up the final straightaway at the state meet. We didn't get the PR we were looking for, which is undoubtedly my fault, but he ran with guts and had a great season this year. I know he'll be setting his sights on a 15:00 next year and leading this team, which needs a lot of leadership and hard work in order to get back to the state meet.

TIDBITS: >>Turn in gear. >>Awards Nights: Tuesday, Nov. 20<sup>th</sup>, 7:00 PAC

WHAT'S NEXT: Awards Night. Craft Fair. Sunday, Nov 18<sup>th</sup> at 3:45 in the Grill Area. Polar Bear! A lot of work! We lose a lot of leadership, talent and work ethic. We have a lot of work to do if we want to talk about returning to state. Who is going to step up?
